

Nutritional Profiles 2017/2018

Note:
 *Dear Parents - Menu items and values can vary from region to region and provincial guidelines and are calculated a little differently in each province. While we are committed to providing the most complete data, we cannot guarantee 100% accuracy. However, we do review this listing several times throughout the school year and modify as necessary.
 *This report is divided into 2 sections - meals and side options. You may need to refer to both to get a complete nutritional picture of the meal. This is indicated for identified meals. For Ontario, food items deemed as **minor ingredients** are indicated by an * and the meal status under the guidelines indicated.
 *Most ingredients are based on the nutritional information provided by our food suppliers. Some are based on Health Canada's Canadian Nutrient File (CNF) database.
 *If you have additional questions about a particular food item, please contact your Lunch Lady kitchen directly or contact our Head Office via info@thelunchlady.ca
 *For a quicker search, press **CTRL F** and type in the **KEY WORD** to locate the menu item you are looking for.
